

Water Treatment System

Description Special Features Benefits

Rid your water of hardness & bad tastes and odour caused by chlorine, chloramines, or organic matter. A full water treatment system gives you the best protection and best-tasting water.

Novosoft 485 HTO:

Get fresher water – and keep it fresh. This unique two-tank system keeps the two media beds separate and allows for more carbon contact improving chlorine, chloramines, and organic removal. Plus, the two tanks make replacing key filters easier.
